Microsoft's Free M365 Engagement

Microsoft's 365 Engagement program supports customers in their evaluation and deployment of M365 with approved customers.

Microsoft 365 Engagement

Activities supported

Activity	Description
Security & Compliance Assessment	Help the customer assess the advanced security capabilities of Microsoft 365. This 1-2 Day engagement includes security and/or compliance covering Microsoft 365, Office 365 E5, Enterprise Mobility + Security and/or Windows 10 advanced security capabilities. Sessions include a customer briefing, discovery with the customer, security assessment in one or more of the security solution areas of Microsoft 365 E5 and post-event delivery of security roadmap for customer. This engagement also covers the scope of GDPR (General Data Protection Regulation) Assessments and EMS Everywhere Assessments.
Advanced Workloads POC	Showcase the value of the advanced capabilities of Microsoft 365 components. Partner can either completed a proof of concept demonstrating the capabilities of Office 365 E5, Windows 10 E5 or Enterprise Mobility + Security E5.
Security POC	Showcase the value of Microsoft 365 security capabilities across Windows 10 Enterprise, Office 365 and EMS, with focus on Windows 10 Defender ATP.
Compliance POC	Drive proof-of-value, gap execution, and establish remediation to enable advanced compliance adoption and implementation through scoped data migration into Microsoft 365 for purposes of follow up compliance workshop.
